**Intonation Cantilever Bridge** — Capture every nuance of string vibration. Experience deep fundamentals and clear harmonics. Retain organic wood tone.

**Headless Tuner** — Aerospace precision. Ergonomic comfort. Secure neoprene grip even under hot stage lighting. Tool-free string changes using any coin.

**Intonation Adjustable Nut** — Individual string control over both string height and intonation. Anchor plain end or ball end strings.

**"One of the most well built, well conceived instruments I've ever owned or played."**

— Tosin Abasi (Animals As Leaders)

SCALE = 1:1
